

Summary of Qualification:

- Results-oriented Full Stack Web Developer with over 4 years of experience crafting user-centric, scalable, and adaptable Single Page UI Applications and web solutions.
- Proficient in utilizing .NET, C#, MVC, and Node.js for robust back-end development, and skilled in crafting responsive, interactive user interfaces using React.js, Angular, HTML5, CSS3, and JavaScript (ES6).
- Extensive experience in developing and integrating RESTful APIs to enhance application performance and ensure smooth interactions between front-end and back-end systems.
- Expertise in working with databases like SQL and MongoDB, including the design and optimization of efficient queries and stored procedures for improved data handling.
- Adept in Agile development methodologies and CI/CD processes, ensuring high-quality, timely delivery of software solutions through automated testing and streamlined deployment.
- Strong problem-solving skills with a proven ability to troubleshoot complex technical issues and deliver innovative solutions under pressure.
- Passionate about adopting new development trends and consistently adhering to best practices in clean code, software architecture, and performance optimization.
- A proactive, goal-oriented professional capable of thriving in both collaborative team environments and independently in fast-paced production settings.
- Demonstrated leadership abilities, including mentoring teams, overseeing sprint planning, reviewing pull requests, and ensuring consistent delivery of high-quality solutions.

Technical Skills:

- **Tools, Technologies, and Editors:** Visual Studio, PHP Storm, Android Studio, JIRA, Kibana, Notepad++, Adobe XD, Slack, Visual Paradigm.
- **Programming languages and Frameworks:** ASP.NET, C#, PHP, Laravel, Node.js, Express, JavaScript, React.js, TypeScript, Android, IOS, AWS, Bootstrap, Material UI, Sass, jQuery, Python, OAuth, CodeIgniter, WordPress, Jest.
- **Database:** MSSQL Server, MySQL, MongoDB (NoSQL).
- **Operating Systems:** Linux, Ubuntu, Windows 7 and 10, macOS.
- **Version Control Systems:** Git, GitHub, Atlassian Bitbucket, Azure.

Related Work Experience:

❖ Web Developer	Dec 2019 – Feb 2022
<b>Company Name:</b> Netsol IT Solution, India <b>Language and Tools:</b> C#, Blazor, .NET, SQL, Git, HTML5, CSS, JavaScript, CI/CD, Agile, Unit Testing Frameworks, GitHub, GitLab, Material UI, Visual Studio, MongoDB, Azure DevOps. <ul style="list-style-type: none"><li>• Built and maintained scalable web applications using C#, Blazor, MVC and .NET, delivering high-performance solutions aligned with modern software architecture principles.</li><li>• Optimized SQL databases by designing efficient queries and stored procedures, reducing query execution time by 25% and improving overall data processing speed.</li><li>• Streamlined deployment processes by developing and managing CI/CD pipelines, automating testing and ensuring seamless software releases.</li><li>• Created and executed unit tests that improved code quality, resulting in a 15% reduction in production issues and enhancing software stability.</li><li>• Collaborated within Agile teams, contributing to sprint planning, stand-ups, and retrospectives to meet critical project deadlines.</li><li>• Utilized Git version control to maintain efficient code management, enabling smooth collaboration and integration across development teams.</li><li>• Ensured compliance with the SDLC, focusing on continuous improvement in software design, testing, and deployment workflows.</li><li>• Leading and mentoring a team of developers by delegating tasks, facilitating Agile sprint planning, reviewing pull requests, and providing technical guidance to ensure consistent delivery of high-quality solutions.</li></ul>	
❖ Application Engineer	Jan 2019 – Oct 2019
<b>Company Name:</b> Riversand Technologies, India <b>Language and Tools:</b> ASP.NET, MSSQL Server, Postman, Kibana, Jira, Kafka, Azure, Docker, Storm UI <ul style="list-style-type: none"><li>• Played a pivotal role in Customer Satisfaction and Support (CSAT), ensuring seamless assistance post-deployment.</li><li>• Leveraged technologies like Postman API, Docker Commands, Kibana, Strom UI, Kafka, and Azure Portal to facilitate customer support and satisfaction.</li><li>• Conducted in-depth analysis of user needs and workflows, crafting intuitive interfaces for enhanced usability.</li><li>• Identified and rectified software design flaws during both development phases and post-installation to ensure optimal performance.</li><li>• Spearheaded software system testing and validation procedures, overseeing programming tasks and documentation for quality assurance.</li><li>• Developed moderately complex code aligned with precise business requirements and user stories.</li></ul>	

❖ **Software Developer**

Jul 2017 – Dec 2018

**Company Name:** Infusion Infotech, India  
**Language and Tools:** PHP, ASP.NET, Node.js, Laravel, AWS, CSS, HTML5, JavaScript, React, Material UI, Angular, GitHub, SQL, MongoDB, WordPress

- Developed websites utilizing PHP, ASP.NET, Node.js, Express, Laravel, HTML, CSS, JavaScript and Angular.js languages.
- Implemented web solutions employing Visual Studio and ASP.NET MVC layouts to ensure efficient functionality.
- Created visually appealing, user-friendly designs and streamlined code, improving website performance and increasing user engagement by 15% through optimized UI/UX design principles.
- Engineered highly responsive, scalable web applications tailored to various industries and client specifications.
- Conducted thorough testing and validation protocols, improving application functionality and performance with a 20% reduction in bugs during the QA phase.
- Managed both new development and updates across multiple programming languages.
- Oversaw the complete lifecycle of applications, from initial design to debugging and full-scale production.
- Addressed client feedback, swiftly identifying and resolving issues, resulting in increased customer satisfaction and a 15% boost in repeat business.
- Contributed to Quality Analysis of the system by performing debugging, end-to-end manual testing and unit testing cases using Jest.
- Specialized in building SaaS e-commerce websites, booking systems, and product-based applications, leading to enhanced customer engagement and streamlined order processing for clients.
- Proficient in developing RESTful APIs, resolving complex problems and enhancing application performance, contributing to a 15% improvement in API efficiency and responsiveness.
- Worked closely with developers, project managers, UI/UX team and testers (QA) to meet client requirements.

❖ **Web Developer Intern**

Apr 2017 – Jun 2017

**Company Name:** Eastern Techno Solutions, India  
**Language and Tools:** PHP, jQuery, CSS, HTML, JavaScript, MySQL, Ajax, Bootstrap

- Developed and contributed to a sports management project, 'SuratCricUps,' focusing on cricket.
- Conducted rigorous cross-browser and device testing to ensure optimal performance and user experience.
- Demonstrated proficiency in writing efficient, maintainable code to enhance project functionality.

**Education:**

<b>Post Graduate Certificate in Computer Applications Development</b> Conestoga College, Waterloo, ON, Canada	<b>Academic Year:</b> May 2023 – Dec 2023
<b>Post Graduate Certificate in Big Data Solution Architecture</b> Conestoga College, Kitchener, ON, Canada	<b>Academic Year:</b> May 2022 – Dec 2022
<b>Master of Science in Information Technology</b> Veer Narmad South Gujarat University, Surat, Gujarat, India	<b>Academic Year:</b> 2017 – 2019
<b>Bachelor of Science in Information Technology</b> Veer Narmad South Gujarat University, Surat, Gujarat, India	<b>Academic Year:</b> 2014 – 2017
